Amazigh: Native

Arabic: Native

French: Professional working

English: Intermediate

PROFILE

Backend developer specializing in PHP/Laravel and MySQL, focused on REST API design and business logic. Delivered an ERP to production during my final-year internship, adapting quickly to the company's stack (.NET, Angular, SQL Server).

WORK EXPERIENCE

FULL-STACK DEVELOPER – FINAL-YEAR INTERNSHIP

INVOLYS, Casablanca (Hybrid) | February – June 2026

- Designed and delivered **GestionCo**, a web ERP for SMEs (sales, purchasing, inventory, PDF/email invoicing, financial reports, role management), through to production
- Developed on the company stack: Angular, ASP.NET Core, SQL Server, Clean Architecture/CQRS
- Set up a spec-driven workflow: module-by-module specifications, code review and validation, automated technical documentation

EXAMINER – FULL-TIME

NARSA, Rabat | Dec 2022 – Feb 2025

- Non-IT role (driving license examinations) while transitioning into web development

WEB DEVELOPER – INTERNSHIP

Royal Institute of Amazigh Culture, Rabat | April – July 2022

- Built a contract management system in PHP & MySQL
- Designed the database schema and CRUD operations

WEB DEVELOPER – INTERNSHIP

AMAL SOFT, Casablanca | September – December 2021

- Built a sales and point-of-sale web application (PHP & MySQL)

PROJECTS

ClinicPro – Laravel, MySQL, Tailwind CSS
Full-stack management application for medical practices and private clinics, with an architecture designed end to end.
github.com/AyoubBellaoui/clinique-medicale-app

GestionCo ERP – Angular 18, .NET 9, SQL Server
Commercial management ERP for SMEs: sales, purchasing, inventory, invoicing, payments and financial reports.
github.com/AyoubBellaoui/GestionCo
